SUMMARY

Motivated B.Tech CSE student with hands-on experience in MERN stack development, building responsive web applications with **MERN**. Skilled in optimizing backend functionality and delivering scalable applications

EDUCATION

University of Engineering & Management Kolkata Kolkata, WB
Bachelor of Technology in Computer Science and Engineering June 22 – June 26
Cumulative GPA: 9

Basirhat Town High School (H.S.)(WBCHSE) Basirhat, WB
Higher Secondary Education Examination June 2022
Percentage: 87.8%
Madhyamik: 88% June 2020

EXPERIENCE

Capgemini Kolkata, India
Exceller Edge Fellowship Program Jan 26 – April 26

- Built hands-on expertise in **Java, Springboot, PostgreSQL, Mockito and Jenkins** through industry-focused Training.

Better Software (Internship) Jaipur, India
Associate Software Engineer July 25 – Sept 25

- Developed high-performance, user-centric MERN stack web applications, integrating Redis caching and API optimization to improve **user engagement by 15%** and **reduce page load time by 20%**.

Academic Projects

SpeakToCrack: [SpeakToCrack](#) is a Next.js-based platform that leverages AI to provide users with **Mar 25 – April 25** mock interview simulations and real-time, personalized feedback to enhance their communication and interview skills. Used by 50+ students, improving readiness and feedback response time by 40%

- [Source Code](#)

Safe Circle: A flutter-based women's safety app which offering real-time location sharing, distress alerts and AI-driven threat detection to ensure secure environments through **Sep 24 – Dec 24** community-based support. Tested by 100+ users and achieving positive user feedback.

- [Source Code](#)

MergeMind: An [AI-powered web](#) platform that analyzes Github pull requests using the Gemini Api, providing developers with actionable insights, code health scoring and recommendations **Oct 25 – Present** to improve code quality, documentation. Built with the MERN stack, integrated with Github webhook, uses Redis for caching and Jest for automated testing.

Extracurricular activities

- Smart India Hackathon 2024 semifinalist • UST Sight 2.0 finalist • LeetCode 1773 (max)

Skills & Interests

Computer Skills:

- Coding:** C, Java
- Frontend:** JavaScript, TypeScript, Dart (Flutter), React.js, Next.js, Tailwind CSS, HTML, CSS
- Backend and Database:** Springboot, Node.js, Express.js, Firebase, MongoDB, MySQL, Redis
- Testing & DevOps:** Junit, Jenkins
- Tools:** Git, Docker, GCP, CI/CD
- Soft Skills:** Motivated, Problem Solving, Team Collaboration, Time Management, Adaptability

Subject of Interest: Data Structure and Algorithms, Database Management System

Certification: Data Structures in JAVA(Coding Ninja), Database Foundations: Intro to Databases(LinkedIn Learning)

Language: English, Bengali, Hindi

Interests: Cricket, Travelling
